RE: 25 CFR Part 543/547 discussion drafts

Dear Honorable Commission Members:

Bally Technologies would like to recognize and thank the Commission for the continued opportunity for review and comment on the pending Class II regulatory revisions, in particular the discussion drafts of Part 547 related to Class II gaming technical standards. Although Bally has been continuing to monitor and review the Part 547 discussion drafts since Bally last provided comments to the NIGC in September 2011, at this time Bally has no further comments to offer on the discussion drafts to the technical standards dated March 16, 2012.

We greatly appreciate the open communications and dialogue maintained by the NIGC and staff through this process and we believe these efforts will lead to many years of continued success by the Indians tribal organizations throughout the country and their various gaming enterprises.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Warkentin", with a long horizontal flourish extending to the right.

Paul Warkentin  
Sr. Product Compliance Manager
